

PHILOSOPHY:

The mission of the Cree Language Program is to develop Cree language speakers who are fluent in reading, writing, and verbally communicating in Cree. Students will acquire fluency and appreciation of the Cree language as they explore language in historical, cultural, and educational contexts. This program is intended to support local schools and their ability to teach Cree language to their students through the Class 7 Montana Teaching License. This program is also intended to support students who may choose to continue their education and enroll in a bachelor's degree program, such as education.

EXPECTED LEARNER OUTCOMES:

Students will:

1. Demonstrate proficiency and fluency in verbal and written communication in Cree and English.
2. Apply knowledge of the history and cultures of the Cree people when speaking, reading, writing, or listening.
3. Communicate effectively with culturally and linguistically diverse individuals in Cree and in English.
4. Apply knowledge of language acquisition theories to assess and evaluate language acquisition, to plan for future growth, and to understand how and why people communicate.
5. Demonstrate behaviors and attitudes of cultural competency that reflect a positive and respectful approach to learning and communicating in Cree language.

COURSE REQUIREMENTS:

Students will complete the GENERAL EDUCATION and the PROFESSIONAL CORE degree requirements as outlined in the appropriate sections with these specific courses required for completion of General Education Requirements.

GENERAL EDUCATION
